Home and Property Awareness

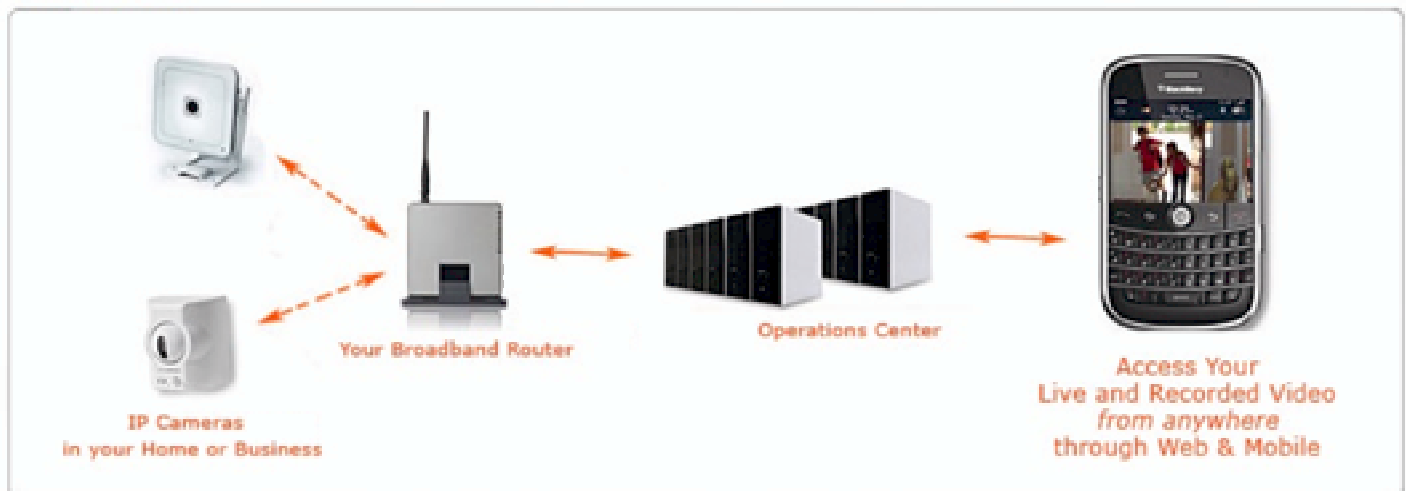

There's comfort in seeing for yourself, your child home safe. It happens when you can watch live video of your living room or get a text message that shows you they arrived safe and were not accompanied by unexpected guests.

With Video Monitoring, you'll always know what's happening in your home or business.

You'll see it wherever you are.

How It Works

- > View live video remotely through Web, PDA, Mobile
- > Automatically record clips when motion is detected
- > Access and play back saved clips from anywhere
- > Up to 8 cameras per account
- > Integrates with Web Interactive
- > No need for a local storage device
